According to [Land Degradation & Development website](#), editor [Paolo Pereira](#) has stepped down from the journal. The journal does not say why, and a spokesperson for publisher Wiley did not elaborate. The website has included the announcement about Pereira above a [longer statement regarding citation issues at the journal](#), which saw its Impact Factor rise dramatically from 3.089 in 2014 to 8.145 in 2015.

Pereira — based at Mykolas Romeris University in Lithuania — has [co-authored multiple papers](#) with [Artemi Cerdà](#) of the University of Valencia in Spain, who stepped down as editor-in-chief of the journal earlier this year.

SOURCE NORMALIZED IMPACT PER PAPER (SNIP)

journal's citation count per paper
citation potential in its subject field

Mesure l'impact contextuel des citations en pondérant les totaux par domaine.

Calcule un potentiel de citation, soit la fréquence à laquelle les articles d'une revue d'un même champ disciplinaire citent d'autres articles dans les trois années précédentes.

Potentiel de citation de la revue médiane = 1.
